

Vikings and Dragons Quiz

1. Click on 'Choose a Backdrop' and choose a background image for your game or paint your own. Customise using the paint tools.

2. Choose a sprite or paint your own.

You can edit your sprite to make it your own design.

3. Duplicate the sprite's costume. Then, change one element.
e.g. give him hair. Duplicate again and change another element. e.g. a hat.
Repeat until you have between 5 and 10 costumes. You will need one costume for each question in your quiz.

4. Make one empty costume and Arrange them in order from 'empty' to the completed.

Rename the costumes.

5. Add the following code to the costume changing sprite.

The code blocks are as follows:

- when I receive Correct**
 - repeat 15
 - change fisheye effect by 25
 - next costume
 - repeat 15
 - change fisheye effect by -25
 - if costume number = 9 then
 - broadcast You win
- when I receive You win**
 - start sound Dance Around
 - repeat 30
 - switch costume to frank-6
 - change x by 10
 - wait 0.25 seconds
 - switch costume to frank-7
 - change x by -10
 - wait 0.25 seconds
- when clicked**
 - set size to 80 %
 - switch costume to empty
 - clear graphic effects
 - go to x: -120 y: -95

A speech bubble from the bee character says: "Adjust the costume numbers according to your last 2 Viking costumes." Arrows point from the speech bubble to the 'frank-6' and 'frank-7' costume blocks in the 'You win' event.

6. Add another sprite. This will be your quiz host.

7. Make some questions for your quiz. The questions need to have one word or a number answer such as:

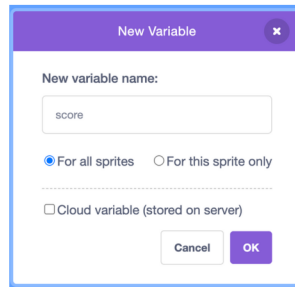

- How many How To Train Your Dragon books are there?
- What is the name of the main Viking boy in the story?
- Which of these is NOT a Viking in Hiccup's tribe?
A) Fishlegs B) Snotlout C) Frodo

or True or false questions such as:

True or False: Toothless is a huge, fierce dragon in the books.

8. Make a score variable.

9. Code the questions on the host sprite.

when clicked

set **score** to 0 This block resets the score to 0 at the start.

switch costume to **dragon-a** Decide which costume you want at the start.

ask **What's your name?** and wait Ask for the player's name...

say **join Welcome to my quiz answer** for 2 seconds Welcome the player

ask **How many How To Train Your Dragon books are there?** and wait Your first question...

if **answer = 12** then And the answer

start sound **Magic Spell** sound effect for a correct answer

broadcast **Correct** Broadcast 'correct' (see page 2)

say **Correct. There are 12 books in the How to Train Your Dragon series.** Tell the player

change **score** by 1 One point is added to the score.

else If the player gets the answer wrong...

start sound **Bonk** Play a different sound effect and..

say **Oops!** for 2 seconds say 'Oops!'

broadcast **Wrong answer** Broadcast 'wrong answer' (See page 4)

wait 4 seconds

wait 3 seconds

10. Add as many questions as you like by repeating this sequence.

ask What's the name of the Viking boy in the story? and wait

if $\text{answer} = \text{Hiccup}$ or $\text{answer} = \text{Hiccup Horrendous Haddock III}$ then

start sound Magic Spell

broadcast Correct

change score by 1

else

start sound Bonk

say Oops for 2 seconds

broadcast Wrong answer

wait 4 seconds

wait 3 seconds

ask Which of these is not a viking in Hiccup's tribe? A) Fishlegs B) Snotlout C) Frodo and wait

if $\text{answer} = \text{C}$ then

start sound Magic Spell

broadcast Correct

change score by 1

else

start sound Bonk

say Oops! for 2 seconds

broadcast Wrong answer

wait 3 seconds

wait 4 seconds

To add more than one correct answer, use these operator blocks.

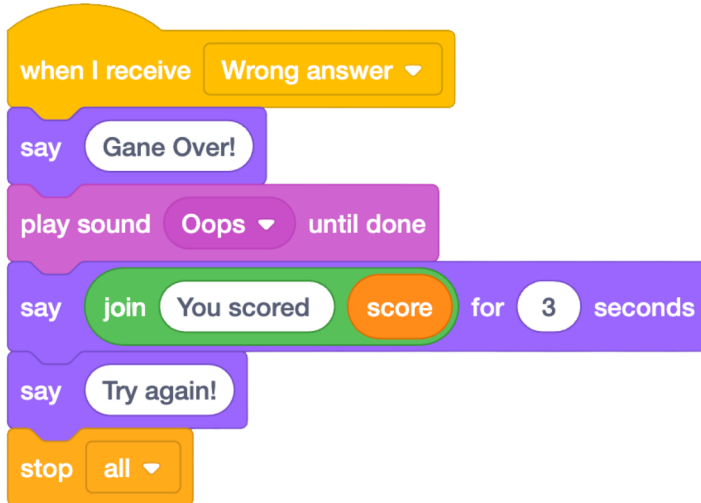

Multiple choice questions. Use A, B or C as correct answer.

You need the same number of questions as Viking costumes.

11. Continue coding the quiz host.

12. To add a different sounds, click on the 'Sound' drawer and select the 'Sounds' tab (top left).

Then, click on the 'Choose a Sound' button (bottom left) and pick the sound effect or sound loop that you like best.

Now test your game! 

 How about adding animation to your quiz host sprite and some background music?
