

## Dragon Cave or Volcano

**In the How to Train Your Dragon stories, dragons live in all kinds of wild and mysterious places - including volcanoes!**

**Today, let's build a cave or volcano for your dragon to live in, hide treasure, or launch into flight.**

**To make lava flow from your volcano, you will need to build it around a small jar or pot.**

## What you need

- Lots of bricks!
- Bicarbonate of soda (or effervescent tablets)
- White vinegar
- A small cup or container
- Red/orange food colouring and washing-up liquid for bubbly lava

## Design Engineering

- Caves and perches for your dragon
- hidden chamber for a bubbling lava eruption!
