

Viking Longship

In How to Train Your Dragon, Hiccup and his friends often use boats to get around the Isle of Berk.

Vikings travel across the sea in longships, searching for dragons and new lands.

Build a boat for Hiccup or a Viking longship with a dragon-headed prow.

Use red and white bricks or tiles to create a sail or use paper.

What you need

- **Plates**
- **Bricks**
- **Paper, card or fabric for sails**
- **Dowel, skewer or long pencil**
- **Tape**

Engineering

Design and stability

**Lego boats don't float very well!
Try adding wheels.**
