

## Viking Training Arena

**In How to Train Your Dragon, the young Vikings train dragons in special arenas filled with targets, obstacles and tricky challenges. These spaces help dragons practise flying, aiming their fire and working with their riders. This week, your challenge is to design and build your own Dragon Training Arena!**

**Think about how dragons move - can you include places to fly through, land, or aim at?**

## What you need

- **Baseboard**
- **Bricks and Plates**
- **Tiles in different colours**
- **Small bricks – to add detail**

## Design Engineering

**Get creative with targets, an obstacle course and test your design with your favourite dragon or minifigure rider.**
