teleporting Duck!
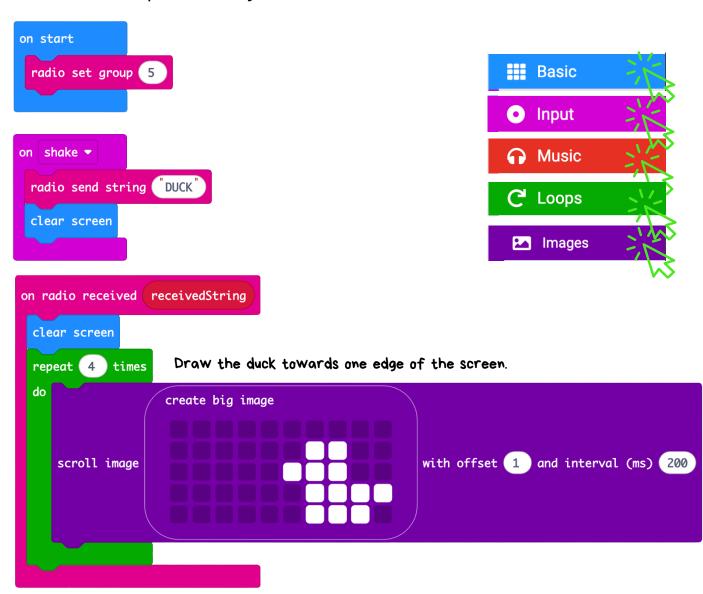

You will need more than one micro:bit for this project.

Here is how to teleport a scrolling duck icon.

```
on start
    radio set group 5
```

```
on shake ▾
    radio send string "DUCK"
    clear screen
```

Basic

Input

Music

Loops

Images

```
on radio received receivedString
    clear screen
    repeat 4 times
    do
        scroll image    create big image    with offset 1 and interval (ms) 200
```

Draw the duck towards one edge of the screen.

Now flash the code to both micro:bits and give one micro:bit to your friend. Take it in turns to teleport the scrolling duck by shaking your micro:bits!
