## Remote Control lights

This double make-code editor is really useful for creating two different codes that need to speak to each other - such as this radio project!

https://makecode.microbit.org/---multi#

This code will turn the lights on and off.

'Remote control' micro:bit.

Micro:bit With fairy lights.

```
on start

radio set group 1

on button A → pressed

radio send number 1

on button B → pressed

radio send number 0
```
